DryWear

QUICK, HYGIENIC, COST-EFFECTIVE

XBody DryWear is a **unique, waterless** EMS training underwear to be used with our XBody training suits.

Risk-free and cost-effective switch

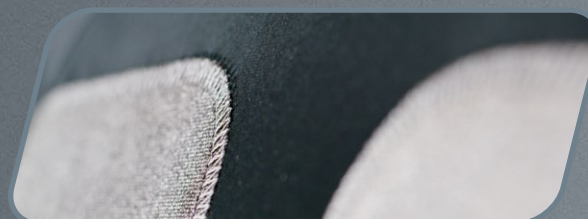

Great stimulation sensation and real muscle contraction

Highest quality of **innovative** technical materials

Let your clients enjoy the **quick and easy suit-up** process and maximum comfort our DryWear provides.

Thanks to the **perfect positioning** of conductive patches and **seamless connection** with the electrode pads, your customers will experience an **excellent stimulation sensation** and **real muscle contraction from the very first moment**.

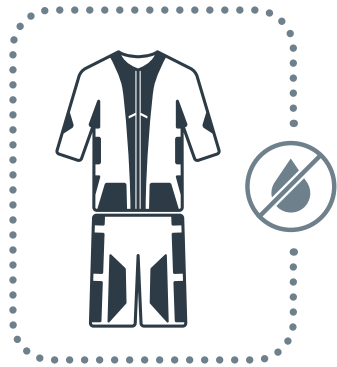

DryWear is made of the **highest quality** of innovative technical materials and is washable.

3 MONTHS
WARRANTY

DrySuit

QUICK, PERSONAL, HYGIENIC

XBody DryWear is a **unique, waterless personal** EMS training suit without need for training undergarments.

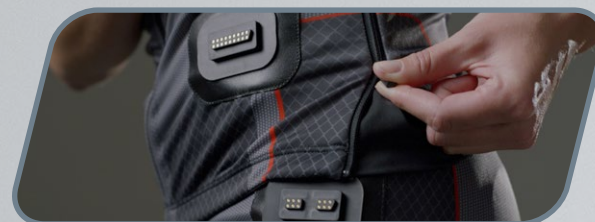

Quick and **easy suit-up**, maximum **comfort**

Great stimulation sensation and real **muscle contraction**

Highest quality of **innovative** technical materials

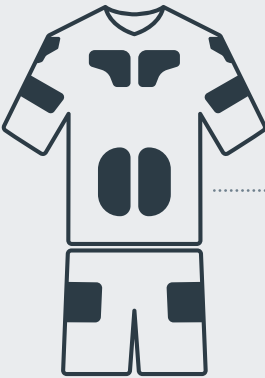

The **dual-layered** design results in the **best possible compression**, and that ensures **real muscle contraction from the very first minute**. The XBody DrySuit comes with **magnetic connection, stretching, seamless and hidden cables**, includes **shoulder electrodes**, are super **lightweight** and **washable**.

Separate jacket and pants make sure it fits all shapes and sizes, and fitting can be finetuned with durable zippers.
